Flat 10 Taylers Court Pelican Lane NEWBURY RG14 1AQ

**Energy rating** 

С

Valid until

8 September 2031

Certificate number

9639-6421-2000-0621-9206

**Property type** 

Top-floor flat

Total floor area

60 square metres

Rules on letting this property

Properties can be let if they have an energy rating from A to E.

You can read guidance for landlords on the regulations and exemptions.

# **Energy rating and score**

This property's energy rating is C. It has the potential to be C.

See how to improve this property's energy efficiency.

The graph shows this property's current and potential energy rating.

**Properties get a rating from A (best) to G (worst) and a score.** The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

- the average energy rating is D
- the average energy score is 60

# Breakdown of property's energy performance

# Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

<b>Description</b> Rating	
Cavity wall, as built, insulated (assumed)	Good
Solid brick, as built, insulated (assumed)	Good
Flat, insulated (assumed)	Good
Fully double glazed	Average
Boiler and radiators, mains gas	Good
Programmer, room thermostat and TRVs	Good
From main system	Good
	Cavity wall, as built, insulated (assumed)  Solid brick, as built, insulated (assumed)  Flat, insulated (assumed)  Fully double glazed  Boiler and radiators, mains gas  Programmer, room thermostat and TRVs

Feature	Description	Rating
Lighting	Low energy lighting in 83% of fixed outlets	Very good
Floor	(another dwelling below)	N/A
Secondary heating	None	N/A

# Primary energy use

The primary energy use for this property per year is 148 kilowatt hours per square metre (kWh/m2).

About primary energy use

- •
- •
- •

# How this affects your energy bills

An average household would need to spend £415 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could **save £0 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2021** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

# **Heating this property**

Estimated energy needed in this property is:

- 3,329 kWh per year for heating
- 1,856 kWh per year for hot water

# Impact on the environment

This property's environmental impact rating is C. It has the potential to be C.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.

# **Carbon emissions**

# An average household produces

6 tonnes of CO2

# This property produces

1.5 tonnes of CO2

# This property's potential production

1.5 tonnes of CO2

You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

# Steps you could take to save energy

The assessor did not make any recommendations for this property.
